

Nassau Candy Distributor — Executive Summary

Product Line Profitability & Margin Performance Analysis

Portfolio performance: The dataset contains 10,194 validated transaction records from 2024-01-02 to 2025-12-31. Total sales were \$141,783.63, generating \$93,442.80 in gross profit and an overall gross margin of 65.91%.

Primary financial engine: Chocolate generated 92.88% of revenue and 95.06% of gross profit. The five core chocolate products therefore represent the company's most important profit base.

Top performer: Wonka Bar -Scrumdiddlyumptious generated the highest gross profit at \$19,357.50. Everlasting Gobstopper achieved the highest gross margin at 80.00%.

Key risk: Kazookles has only 7.69% gross margin and should be reviewed for repricing, cost reduction or discontinuation.

Concentration risk: Five products exceed 80% of both revenue and profit, showing substantial dependency on a small portfolio.

Factory insight: Lot's O' Nuts is the largest gross-profit contributor. The Other Factory is the weakest margin contributor because of its product mix.

Recommended actions: Protect core chocolate supply and pricing, establish a margin threshold alert, review Kazookles immediately, use profit-based promotion rules, and monitor concentration risk monthly through the Streamlit dashboard.
